# Who does KAPE suport with the White Certificates Scheme (WCS)?

- Regulatory and implementing bodies
- Companies

KAPE is a dychotomic company. The dychotomy stems from the ownership – the majority of shares belongs to the National Environmental Fund (the main Polish institution responsible for managing all kinds of environmental funds such as penalties, fees, EU funds, subsidies etc.). The ownership generates expectations that KAPE will serve to the implementing bodies for free. But on the other hand the relationship has to be kept on balanced to avoid any legal issues.
